SKIRT EXPANDER

It appears, says the Baltimore Clipper, that a gentleman of the city of Troy has invented an article he calls a skirt expander. If a lady should be walking and wish to appear larger or smaller, the skirt is so constructed that she may enlarge or diminish her apparent size at pleasure. This is an invaluable invention, and will entirely supercede the bustle, over which it has many advantages. A lady may pass down one side of the street as thin as a whipping-post, and if she fails to make a sensation, can go up the other side as full as a hogshead or a bale of cotton.

NEW YEAR'S DAY

Custom, in this city, has set apart this day for the giving and receiving of visits. For years past, it has been usual, for gentlemen to call and pay their respects to their lady acquaintances. Time and universal acquiescence have sanctioned and approved the custom. It is one of those proper observances, which, we trust, will long be preserved in our city.

As usual, the better halves of the proprietors of the Republican will be at home today, to all who may honor them with a call.

HINTS FOR NEW YEAR'S DAY

A fashion journal gives the following hints to ladies who intend to "receive" on New Year's day:

Quite young ladies, debutants, should receive their New Year callers in full regulation ball toilets. Low-neck dresses with short sleeves are ever popular with the gentlemen.

It is not fashionable or "just the thing" for ladies to receive or gentlemen to call before 10 o'clock A.M. on New Year's Day, and don't close your shutters and light the gas, as this is no longer the style.

EDITOR'S NOTE:

It is quite easy to understand the disappointment and possibly annoyance when our Quarterly Bulletin is issued so late. For binding and future reference we do maintain the proper dating, but with mostly volunteer help meeting dead-lines is difficult. Almost all of our difficulties in this connection could and would be eliminated if we could have the cooperation of every member - not just the faithful few - in mailing some or all of the material which we feel certain each member has in personal and family collections of genealogical data. If you cannot type-copy, trust us with your copies and we will be most meticulous in our handling, copying and returning to you. We need all types of data - family lines, Bible records, miscellaneous papers deeds, wills, cemetery records, etc.

Don't be timid - don't hesitate - don't procrastinate -----
mail your material to the Editor NOW.
