Locked In at the Library!

Saturday, March 20, 1999
Approximately sixty DGS members will spend the first hours of spring on the eighth floor of the downtown Dallas library. From 6:00 p.m. until the wee morning hours hardy

genealogists will be scanning microfiche, copying extracts from books and microfilm, perusing CD's and online resources, and digging through dusty files, all to help raise money for the society and find those illusive ancestors! If staying up until the crack of dawn in order to have a crack at those records appeals to you, send in your registration today! (See the February issue of this newsletter for the lock-in registration form.) Refreshments will be available and attendees may leave at any time. This is a "members-only" activity, but if you'd like to join the Dallas Genealogical Society, there is a membership application inside this issue. page 51.) Ask the people who attended last year's lock-in and you'll find that it was an enjoyable and rewarding way to spend the night, and benefit DGS!

March Meeting Features Lloyd Bockstruck Special & Unusual Resources in the Genealogy Department of the Dallas Public Library

Beverly Johnston Holmes, VP Programs

You've just returned from a research trip to the county courthouse where your ancestors lived, or to the state archives of their residence, or to Salt Lake City, and then discover that the records you've found there had been at Dallas Public Library all the time. Or, you think you've looked and found all the information available about your family on the 8th floor. How can you be sure that was the information available?

At our March meeting Lloyd Bockstruck will discuss the treasures that seem to be hidden to many of us as well as unique and unusual resources just waiting for us to discover them.

Perhaps it has been a while since you researched at the downtown library for one of your family lines. You might not be aware of the multitude of new materials that has been added recently. Over the past year there have some sizable bequests to the Genealogy Department that have made possible the purchase of many new records on microfilm, microfiche and in print. While our monthly Newsletter does list some recent acquisitions, we are told that it is almost a year behind in keeping up with these acquisitions.

You won't want to miss learning about all these exciting acquisitions. Please join us on Monday, 22 March 1999. Don't forget: the meeting begins at 7:00 p.m., but we have coffee, cookies and chat time at 6:30 prior to the meeting. Visit

the DGS Sales table too and see what's new!

Dragidant

Founded in 1955, the Dallas Genealogical Society (DGS) is the oldest organization of its kind in Texas. It is a nonprofit, tax-exempt corporation and a member of the Federation of Genealogical Societies (FGS). The object of this society shall be to create, foster, and maintain interest in genealogy; to assist and support the genealogy section of the J. Erik Jonsson Central Library in Dallas, Texas, or to its legal successor; and to collect, preserve, copy, and index information relating to Dallas County and its early history.

DGS NEWS and UPCOMING EVENTS

President's Message Carole Chew Ruska,

President

The Executive Committee has met with Mr. Salazar, Director of the Library, and Mr.

Smiley, Computer Technology person. We have also talked with Ms. Stern, Friends of the Library Vice President, to gain more insight into the 8th Floor Renovation Project. DGS must develop a plan and a "needs list" for the Genealogy Section for input into this project. If you would like to put in your two cents worth about what facilities, equipment, and changes you would like to see in the renovation, you can e-mail us at dgs@chrysalis.org or leave a message on the voice mail 214.670.7932. We would like our membership's ideas on this project.

This renovation project is poor timing for DGS, although we certainly welcome expansion at any time. We just finished our own Capital Expansion Program in 1996 followed by the FGS Conference in 1997, both of which were enthusiastically endorsed and supported by the membership. We raised record amounts of money for DGS with these projects, and now are faced once again with asking for your support financially. Within the next month, members will receive a pledge card for the 8th Floor Renovation Project to raise money for this project. Please be as generous as you can. This opportunity is too good to decline even though most of us are still tired and broke from the earlier endeavors. So when you receive your pledge card, please remember, that it is easier to write a check than hold a convention!

The DGS Nominating Committee for this year was elected at the February meeting. They will be searching for people to carry on the work of the society. Some Board members will remain while others will request replacement. The nominating committee has the job descriptions for each open office, and you will know what is being asked of you as a Board member. There are no easy jobs, no "in name only" jobs, no two-nights-a-month jobs, and few perks. Sounds great, doesn't it? The Board works very hard to keep DGS one of the best genealogical societies, and the Genealogy Department of the Dallas Public Library as one of

the top five in the country. Membership is now at an all-time high, and we are already planning into the next Board year. If you think you can serve in any capacity, please call Susan Powdrill, Volunteer Coordinator and member of the nominating committee, and give her your name. She will submit your name and the nominating committee will contact you to match you with the needed positions. Please consider serving as a Board member. WE NEED YOU!

Well, let's see . . . in this one message I have asked for your ideas, money, time, and service. I guess that about covers it for now. PLEASE RESPOND!

Editor's 2p Jill M. Clark, VP Newsletter

As a displaced Northemer, I've learned after nineteen years in Texas that spring comes early around here. There's no use referring to the calendar because robins were seen in my yard at the end of January and somebody had daffodils up before Valentine's Day. It's likely that we've had our last freeze and some of us have already started turning over soil, pulling weeds, mowing lawns, and planting vegetables and flowers. The Celtic blood in me cringes at the thought of another long, hot, Texas summer!

Imagine what it must have been like for your immigrant ancestor who came to Texas from Germany in the 1840's; or the Ulster Scot frontiersman in your family tree who forged his way through the wildemess and finally settled his family in what is now the Lone Star State. The soil, the weather, the critters — all had to be reckoned with in order to provide food and shelter for loved ones and just plain survive!

March is a good time to remember these early settlers in Texas; their fight for independence and their hardy, adaptable spirits. Take an afternoon off and sit down with a good history book and something cool to drink. Read about the early Texans and their environs. Visit Old City Park near downtown Dallas, or Penn Farm at Cedar Hill State Park. If you are new to the area take the time to learn the names of the native plants and birds you see. Ask questions of the old-timers and sip tea with them on their front porches. Soon you'll know the difference between a Magnolia and a Mesquite and you'll be adapting to your surroundings – just like the early immigrants did!

DGS Needs YOU!

Susan Powdrill, Volunteer Coordinator

Due to illness and resignations there are several vacancies at the 8th floor volunteer desk. If you can help during any of the following times, please give me a call at 972.458.8580.

Sunday: 3 - 5:00 p.m.

Monday: 5 - 7:00, and 7 - 9:00 p.m.

Wednesday: 7 - 9:00 p.m. Thursday: 7 - 9:00 p.m.

Saturday: 9 - 11:00 a.m., 11 - 1:00,

1 - 3:00, and 3 - 5:00 p.m.

Remember, when you work at least 2 hours you get free parking for the day. Also, if you live outside the Dallas city limits, you can get a free library card. Not only that, but you also get to meet many very nice people who share a common interest. Hope to hear from you!

1998 DGS Writing Awards Winners and Participants

The Dallas Genealogical Society wishes to congratulate the authors who participated in the 1998 DGS Writing Awards Competition. Through the

competition DGS hopes to encourage genealogical writing and development of genealogical writing skills. Each entry was judged in three areas.

- Genealogical Content (including writing style, numbering system, evaluation of evidence, documentation, and source citation) comprising 50% of the total rating.
- Writing Composition (including word structure and vocabulary, spelling, grammar, usage and style, and mechanics) comprising 25% of the total rating.
- Presentation of Material (including printing quality, general appearance, title page, dedication, bibliography, glossary, etc.) comprising 25% of the total rating.

These areas for judging were assigned to three anonymous judges for the competition. Each judge is an experienced professional in his/her given field. All judges are non-DGS members. Qualifications of the judges are as follows:

- Genealogical content judge -- has national standing in the genealogical field with 25+ years of experience.
- Writing composition judge -- has 20+ years experience as a journalist and editor with various newspapers.
- Presentation of material judge -- has 20 years of experience in the desktop publishing business

Announcing the . . .

LAND INSTITUTE

22-25 July 1999

The Dallas Genealogical Society is sponsoring a new institute concept. We have shortened the time to two-and-a-half days and three evenings, AND reformatted the institute into a short, intensive workshop on one specific subject: LAND. We have moved the institute to the Dallas Public Library so genealogists can also do research at this excellent facility

More and more genealogists are discovering the value of learning the skills necessary to place their ancestor's property on a USGS topographical map (topo, for short) to resolve research problems. The "Land, Land, and More Land" Institute is designed to acquaint you with the rudimentary skills needed to understand how to read deeds and plat them. You will learn techniques to overcome obstacles such as water and how to put together a neighborhood on a USGS "topo" map. All necessary equipment such as land measure compasses and engineer's rulers are supplied, but students are encouraged to bring calculators. Students will also be able to use the DPL map collection and Genealogy Department Friday and Saturday evenings.

Instructors are Mary McCampbell Bell from Virginia, and Birdie Monk Holsclaw from Colorado, both national lecturers and experts on land records and platting. Birdie's husband developed the *Black Oak Mapper* computer software program for platting deeds. Interactive land sessions and hands-on platting provide the skills you need for solving your own land problems.

Our own Lloyd Bockstruck will open the Institute on Thursday evening (6:00-9:00) with a talk on land records in the Genealogy Department. Darlene Brimmage will discuss the topographical and historical maps located in the Dallas Public Library. Friday and Saturday (9:00-4:00) feature land classes and platting exercises. Friday and Saturday (6:00-9:00) evenings cover using topographical maps and research assistance. Sunday (9:00-1:00) begins with a brunch at the Ramada Plaza and lessons in public land records and platting. Much information, skills, and research are packed into this institute. We hope this schedule, which requires only one day of vacation for working people, is more convenient and less costly for genealogists. It will be well worth your time and money.

Cost of the Institute is \$200.00. This covers the land platting kit and handouts, Friday and Saturday lunches, brunch Sunday, and evening classes/research time. Space is limited to 100 preregistered students. So that we might have adequate materials for the workshops, no registrations or "walk-ins" will be permitted after 1 July. Please send \$100 deposit when your decision is made as we reserve the right to cancel the Institute if minimum registration is not reached by 15 May 1999. Full refunds will be issued in this case.

The Dallas County Records Inventory Project Shirley Sloat

Pictured is part of the team of DGS members who are currently involved in inventorying records of Dallas County. Pictured on the left is Lois Dillard, the

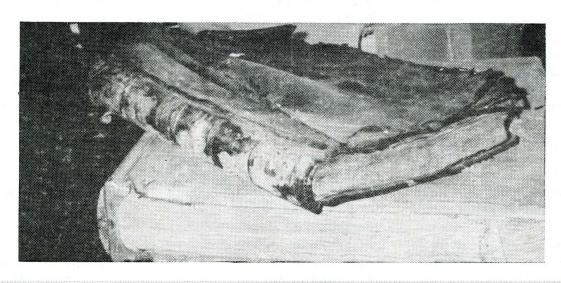

Begun in January 1998, the project is expected to last 2-3 years, and will result in an inventory of existing Dallas County records showing the record type, its official retention period, and the dates and data content of the various records. The majority of 1998 was spent at the "old archives" building on Harry Hines Boulevard. The attached picture gives an indication of the conditions there, which have been greatly improved by a move to a newer records storage facility off Highway 30 near Westmoreland. When completed, it is expected

Additional projects that have evolved from this inventory effort include Dava Ladymon's publication of delayed birth information, and Shirley Sloat's compilation of a list of the names and terms of Justices of the Peace since the 1846 origination of Dallas County.

Was Your Ancestor in a Military Prison of the Civil War?

By Sammie Lee and Gerri Brannan

(Sammie Lee and Gerri Brannan are staff members of the Genealogy Section, J. Erik Jonsson Central Library, Dallas Public Library.)

During the American Civil War (1861-65) a total of almost 410,000 Union and Confederate soldiers were held in military prisons. If you've obtained the military service record of your ancestor, it's possible you found a notation concerning his capture and imprisonment in one of these facilities. As the "inquiring genealogist" forever seeking answers, you may also have tried to locate more information on the prison where your gallant warrior was held. Perhaps you have had little or no luck.

Good news! Now, there is help to be found in a fairly new book, Portals to Hell: Military Prisons of the Civil War, by Lonnie R. Speer. Published in 1997, Mr. Speer's book is a comprehensive study of all major prisons, both North and South. He has included information on locations, time periods, numbers of POWs held, relationships, conditions, diseases, death rates and causes (56,000 soldiers died in these facilities), and much more. Mr. Speer used official documents, newspapers, letters, diaries, and manuscripts to compile a very readable history on this subject.

Portals to Hell is located in the History and Social Science Division of the Dallas Public Library (call number 973.771 S742P). The good news is this book circulates and can be checked out if you have a valid DPL card. The book is also available in book stores (list price, \$34.95) and is available on the Internet from Amazon Books (http://www.amazon.com) for their price of \$24.47.

Below is a list of the Union and Confederate prisons as shown in Mr. Speer's book (Appendix C: Prison Quick-Reference Guide, page 323-340.) This list also includes the type of facility, years in existence, maximum capacity, the most POWs held, escapes, and deaths.

A Brief History of Cedar Hill, Texas

The name Cedar Hill was derived from the area due to its cedar brakes and elevation: 841 feet above sea level. It is reported to be the highest point between the Red River and the Gulf Coast. (East of the "Hill Country.")

The families of James HOLLAND, Jacob and Drusilla BOYDSTUN, Isaac LOWE, W.S. PETERS, and Robert GROUND immigrated from Illinois to this beautiful area between 1845 and 1848. They decided to settle here because the soil was fertile enough to grow many grains including wheat and oats, and well adapted to the growing of cotton.

Prehistoric animal remains have been discovered in and around Cedar Hill. A sea lizard measuring approximately 37 feet long was excavated several years ago and is on display at Southern Methodist University in Dallas.

Cedar Hill is the second oldest town in the county and would have become the county seat except for one vote.

In 1856 the first church (Methodist) was established. A house to worship in was built in 1860. Around 1900 the present church building was erected.

On April 19, 1856, a tornado destroyed Cedar Hill and many lives were lost. The townspeople worked together and completely rebuilt their city by 1860.

The Historical Society Building was built by the Cedar Hill Historical Society in 1980 on land donated by High Pointe Builders. Later, this property was given to the City of Cedar Hill which maintains the house and land to this date.

QUERIES

The *DGS Newsletter* editor reserves the right to edit queries for space and clarity. The problem is there have been so few queries lately that she is tempted to add to them! To prevent this from happening, please send yours to "Queries," DGS, PO Box 12466, Dallas, TX 75225-0446. Non-members are welcome to submit queries but a \$3.00 charge is requested for each. Thank-you!

A well-written query, whether you are typing it out to include it here or posting it to a message board online, has a better chance of bringing results to the researcher when it contains the following components: surname in capital letters, given names, especially unusual names or naming patterns in the family, a date and place of earliest known residence, and date and place of last known residence. (You might also include the date of birth, marriage, and death, if known.) Queries are generally brief and to the point and always contain an e-mail or snail mail address so the researcher can be easily contacted.

WALKER, SEWARD

Isaac B. WALKER was born 1858 in Grayson county, Texas. He came to Denton County, Texas when he was a small boy and lived here until 1904 when he moved to Dallas. He married Elizabeth SEWARD in Dallas, 21 Dec. 1881. Their children were Lucius E., Alva M., and Lilla. I would like to contact descendants of Isaac B. Walker and Elizabeth Seward.

I want ancestors with names like Rudimentary Montagnard or Melchizenick von Steubenhoffmannschild or Spetznatz Giafortoni, not William Brown or John Hunter or Mary Abbott.

I want ancestors who could read and write, had their children baptized in recognized houses of worship, went to school, purchased land, left detailed wills (naming a huge extended family as legatees), had their photographs taken once a year — subsequently putting said pictures in elaborate isinglass frames annotated with calligraphic inscriptions, and carved voluble and informative inscriptions in their headstones.

I want relatives who managed to bury their predecessors in established, still-extant (and indexed) cemeteries.

I want family members who wrote memoirs, who enlisted in the military as officers and who served in strategically important (and well documented) skirmishes.

I want relatives who served as councilmen, schoolteachers, county clerks and town historians.

I want relatives who 'religiously' wrote in the family Bible, journalizing every little event and detailing the familial relationship of every visitor.

In the case of immigrant progenitors, I want them to have arrived only in those years wherein passenger lists were indexed by National Archives, and I want them to have applied for citizenship, and to have done so only in those jurisdictions which have since established indices.

I want relatives who were patriotic and clubby, who joined every patrimonial society they could find, who kept diaries, and listed all their addresses, who had paintings made of their houses, and who dated every piece of paper they touched.

I want forebears who were wealthy enough to afford, and to keep for generations, the tribal homestead, and who left all the aforementioned pictures and diaries and journals intact in the library.

But most of all, I want relatives I can FIND!
