## PRESIDENT'S ANNUAL REPORT

As required by our By-Laws, "The President shall make an annual report to the membership for publication in the Fall QUARTERLY". It is my pleasure, as well as my duty, to report the activities and accomplishments of the Society, as directed by an extremely capable and active Board of Directors.

This report is divided into external and internal operations.

### EXTERNALLY:

This year was memorable since we were involved with the closing of the old familiar library and the dedication and grand opening events of the new Central Dallas Public Library. Many of our members responded to the appeal for volunteers to work on a regular basis in various areas of this new facility. The Society presented a large diffenbachia plant to beautify the new Genealogy Department. Our April meeting date coincided with the Library's highlighting of the Genealogy Department and Lloyd Bockstruck's talk in the auditorium was to a standing-room only crowd.

A "public relations" letter was sent to some of the Library staff and to all eleven members of the Municipal Library Advisory Board outlining the history and past accomplishments of the D. G. S. and past donations of both services as well as money that this Society has made to the Library's Genealogy Department in fulfillment of our stated purpose to support the Dallas Public Library for the benefit of all.

One large memorial gift was presented to the library in memory of all deceased members during the 1981-82 year. Also given to the Genealogy Department were books received for review in our Quarterly and other donations by individual D. G. S. members.

The 234 microfilm roll set "Index to Compiled Service Records of Volunteer Soldiers who Served During the War of 1812" begun last year was completed with the help of donations from D. G. S. members and a \$500 grant from Atlantic Richfield initiated by a D. G. S. member. The next project is the 535 roll set "Master Index to Combined Service Records of Confederate Soldiers". The workshop profit donation of \$2500 was designated toward the completion of this collection.

In order to generate sales of our books (DALLAS COUNTY MARRIAGES 1846-1877, INDEX TO PROBATE CASES, DALLAS COUNTY, TEXAS 1846-1900, and ANCESTORS OF DALLAS GENEALOGICAL SOCIETY MEMBERS) review copies were sent to 25 genealogical columnists and/or publishers in 9 states. The Society also placed ads in 2 editions of THE GENEALOGICAL HELPER on our publications, resulting in increased sales and publicity for our Society. Notices of our activities were also well reported locally in area and neighborhood newspapers.

D. G. S. publications valued at over \$200 were donated to the Montgomery County, Texas Library whose genealogy department was damaged extensively by fire.

The Society's annual book award was presented to Allison Cheney for A LEGACY OF LOVE.

Volunteers manned a table at the Oak Cliff and East

Dallas street fair locations of the Historic Preservation League's "Urban Pioneer Tour" to pass out free genealogical forms, information on genealogy in general and our Society in particular.

The list of other societies with whom we exchange publications was updated and revised to reflect geographic areas our member are particularly interested in researching. The 54 Quarterlies we receive in exchange are placed in the Library and represent a contribution of approximately \$540 per year. We also instigated exchange of books published by these societies which adds to our library's collection.

We revised and enlarged the mailing list of non-members who receive our monthly newsletters, (i. e. Dallas City Council, Municipal Library Advisory Board, "Friends of the Library" officers, area libraries and genealogical societies, historic preservation groups, etc.) toward the goal of increased community awareness of our activities.

INTERNAL conditions reflect the following:

The balance on hand in our treasury as of the 24 June 1982 meeting is \$6,891.59. Balance July 1, 1981 was \$6,136.34 which reflects an increase of \$755.25.

Careful budgeting and investment of surplus funds were initiated to offset increases in postage, printing and other expenses. Two paid storage arrangements for unsold publications and microfilm negatives were eliminated and this inventory transferred to the "limited access" storage area in the new Library. Consequently, the Society is in excellent shape financially, without having to raise our membership fee.

Membership as of July 1, 1982 was 462. If spouses were counted separately, membership total would be 545, representing 60 Texas towns, 11 other states and Canada. Nine Newsletters during the year kept members informed. Membership brochures were available at the Dallas Public Library and branch LDS libraries. Every effort was made to increase membership. \$150 was approved as the current fee for life membership.

Programs at eight regular meetings, plus a Saturday, half-day beginner's workshop were well planned, well attended and reflected a variety of research topics to interest and educated. All were open to the public.

D. G. S. Quarterlies from 1955-1976 were microfilmed on two rolls and are available for sale. Quarterlies from 1977-1981 were also filmed. This ensures preservation of all previously published material, makes it available to individuals and libraries in an economical and space-saving way and eliminates the storage problem of more than a minimum number of past complete volumes (4 issues) of the printed quarterlies for sale. Also, all back quarterly issues were bound for the Editor's use.

In an effort to reduce publication cost, the quarterly, beginning with the March 1982 issue, was changed from its familiar 8 1/2" X 11" size to a compact 5 1/2" x 8 1/2" size without reducing quality or the number of pages. The contents emphasize Dallas County records.

Initial plans for this year's innovative workshop began last July and culminated in a record-breaking total, both in number of exhibitors (17 using 38 tables), number in

attendance (450), and income. Books and family association publications were solicited for display resulting in 339 books plus nearly 200 family newsletters totaling a value of \$5,900 which were placed in the Genealogy Dept. of the Library after the workshop. Lloyd Bockstruck gave morning and afternoon lectures on "Military Service and Records of Colonial Wars Through the Spanish American War."

A \$2,500.00 cash donation was also presented to the Genealogy Department, making a total of \$8,400.00 generated from the workshop!

A Board member directed the monthly research at the Dallas County Courthouse of early marriage and deed records for future publication in the Quarterly.

A By-Laws change was made which permits the older records of the Society to be stored in the Archives and Research Center for Texas and Dallas History division of the Dallas Public Library instead of at the President's home. (Article V, Section 1.)

Several forms used in genealogical research were chosen to have available for sale at meetings as a service to members. The Library Store at the Central Library is also interested in handling these forms in cooperation with the D. G. S. as a service to all Library patrons.

A parliamentarian was added to the Board of Directors.

A survey letter was composed to be sent to current members plus those from last year who did not renew membership. This questionnaire will help the Society learn how to plan programs, activities, etc. to keep our members and to serve them in the best way.

Job description forms were designed so that information from officers can be passed on to their successors. A form letter was also devised to expedite routine correspondence we receive.

We continued collecting members' ancestor charts in anticipation of another publication.

Typing, proofing and research continued on the first volume of Dallas County Cemeteries which should be ready for publication soon. This monumental task of recording carefully all burials in this populous county is expected to take several years to complete.

A gavel was presented to the Society to be used by all successive presidents by the outgoing president. It is inscribed in honor of her 1981-82 Board.

At the June meeting, a life membership was presented to Helen M. Lu for her outstanding contributions to the Society. She has served as Vice-President in charge of membership, Editor of THE QUARTERLY and during her term as president three books were published by the Society and the first 3,100 probate packets of Dallas County were micro-filmed. This year as Executive Vice President, she was in charge of the workshop which was innovative and successful. Now, she has agreed to again take on the presidency. Such continued, dedicated service deserves a special commendation.

I think you will agree that it has been a busy year!

Margaret Ann Thetford  
President, 1981-1982

EDITOR'S DESK

Here it is! The long awaited workshop issue. You will find all of the Family Publications listed and book reviews for approximately two-thirds of the books that were on display in the Publishers Corner. Order information is included for the Family Publications and the books reviewed. The remaining books will be reviewed in the December issue. All books have already been donated to the Genealogy Department of the Dallas Public Library. However, all may not be on the shelves yet, due to cataloging and binding.

THERE IS NOT AN INDEX IN THIS ISSUE!!!!!! We have used the space to review as many books as possible. The Board gave permission for this issue to be larger in order to review all books in one issue. We printed as many reviews as we had space for. It is hoped these reviews and family publications will make it easier for you to use all of the fine books we received for the workshop. As soon as all books have been reviewed, we will continue with our regular features.

I wish to thank all who reviewed these books for THE QUARTERLY and the many who helped proof this issue. I could not have done it without their help. Thank you so much.

Please get your queries in. We need them for the coming issues. Take a little time and help yourself and find an ancestor.

Margaret Hudson

#### BOOK REVIEWS

All books reviewed in this issue were received for the Publishers Book Exhibit of the Dallas Genealogical Society May 8, 1982 Workshop. We in turn donated these books to the Genealogy Department of the Dallas Public Library. The form used for these is as follows: Title, Author, Date published, Size, Type of binding, Type of printing, No. of pages, Indexed, Order from and address, Price, Mailing Charges, and Tax if applies. Review.

Editor's note: The reviews are NOT indexed.

THREE SISTERS A GENEALOGICAL HISTORY OF THE HUNTER, DICKEY AND LATHROP FAMILIES, O. Clyde Donaldson, 1980, 6 x 9, Library, Typeset, 223 pages, Indexed, O. Clyde Donaldson, 7 Interlachen Road, Hopkins, MN 55343, \$20.00, \$1.50 mailing.

This book tells the story of three sister, Elizabeth, Nettie and Ella Weaver, who were the daughters of John and Mary Cole Weaver, who moved from southeastern Indiana to Scott County Minnesota, and their experience during the dreadful Sioux Uprising of 1862. The first 7 chapters deal with their family and the Hunter, Dickey and Lathrop families they married into. It is an interesting narrative covering early days in Minnesota and South Dakota. Each chapter is footnoted and sources are given. The second part of the book contains detailed biographical information, fully documented on Hunter, Dickey and Lathrop descendants, there is a full name index and many photographs of family members. This is an attractive readable genealogy.

HERITAGE - THE HISTORY AND GENEALOGY OF THE DONALDSON AND WHALEY FAMILIES OF BATH COUNTY, KENTUCKY, AND THEIR DESCENDANTS, O. Clyde Donaldson, 1979, 8 1/2 x 11, Library, Offset, 196 pages, Indexed, O. Clyde Donaldson, 7 Interlachen Road, Hopkins, MN 55343, \$20.00, \$1.50.

This family history is a well-written account of the family of the author, starting with William Donaldson in 1792 posting a marriage bond in Staunton, VA continuing down to the present generation, some of whom reside in California. Beyond being a well documented family history, this illustrates the settling of the United States as the family moved west to Montgomery County KY then on to Illinois, Indiana and further west. The first part of the book is a narrative account of the family, while in the second half there are detailed family group sheet, a bibliography, some family photographs, and a full name index. In the appendix, the full text of some of the most important family documents is given.

FREDERICKSVILLE PARISH VESTRY BOOKS 1742 - 1781 VOLUME I & II, Rosalie Edith Davis, 1981, 8 1/2 x 11, soft, offset, 220 pages, Indexed - full name, Heritage Trails, Mrs. Rosalie E. Davis, 923 La Cherie Drive, Manchester, MO 63011, \$16.50.

This book should be a boon to Virginia Researchers - better than the original, certainly, much easier to read. It is a complete transcription of the Minutes of the Vestry

meetings. Volume I includes names and accounts of the poor; names of people paid for services, some deaths and removals; names of parishioners of land over a forty year span. Volume II has names and some information on indentured children and parishioners returns, many of which gives all adjoining land owners. The appendix lists minister, vestrymen, clerks and sextons of Fredericksville Parish, Virginia.

RIMMONIM BELLS, Richard J. Alperin, 1980, 8 X 10, Library, Typeset, 250, not Indexed, Richard J. Alperin, 842 Lombard Street, Philadelphia, PA 19147, \$39.95.

This is an interesting book and quite unlike the usual genealogy. There is no index as such but rather 24 different tables; some being Cemetery Information, Lines of Descent; Author's Direct Ancestors and Collateral Relatives. These various tables function as the index. The first few chapters deal with the mechanics of Jewish research. In later chapters, each family is treated separately. Much detail including information on the European origins of the families is presented in both narrative and chart form. There are photographs of family members and illustrations of representative documents and letters. This well done book should be an addition to an underdeveloped facet of genealogical literature.

BIRTHS, MARRIAGES AND DEATH CERTIFICATS, CAMBRIA CO., PENNSYLVANIA, Mrs. Betty J. Mulhollen (Mrs. O. L.), 1972, 9 1/4 x 6 1/8, Soft cover, Offset, 39 pages, Indexed, Mrs. Betty J. Mulhollen, 604 North West St., Ebensburg, PA 15931, \$6.00, \$.60.

Consists of detailed information concerning each of 40 births, 83 marriages, and 29 deaths which occurred between 1850 and 1855 in Cambria County, Pennsylvania. Lists of births contained all of available information showing date and place of birth, name of mother and father, occupation of father, race and sex of child, attending physician, and on some the date of filing of this information. Lists of marriages show name of bride, and groom, parents of both, occupation of bridegroom, birthplace of both bride and groom, date and place of marriage and the person officiating. When a parent of either of the principals was deceased and the remaining parent had remarried, at times that information is given. The list of deaths gives not only the name of the deceased but parents of deceased, siblings, if any, name of person who was married to deceased, as well as date of birth and death and place of commital.

THE GARNSEY - GUERNSEY GENEALOGY (SECOND EDITION), Judith L. Young-Thayer 1979; original Eva Garnsey Card and Howard Abram Guernsey (1963), 1979, 6 x 9, Library, Offset, 531 page, Surname index of spouses, The Garnsey - Guernsey Genealogy, Judith L. Young-Thayer, 2044 Crawford Drive, Walla Walla, WA 99369, \$20.00.

This book covers the descendants of Henry Garnsey, 1692, of Dorchester, MA and Joseph Guernsie - Garnsey 1688 of Stamford, CT. The dictionary format of the genealogy is interesting and easy to use, The descendants are listed

alphabetically, which makes finding a specific person easy. A numbering system is used which enables one to follow back a line of descent. By use of extensive abbreviations, a great deal of information is contained in each entry. When unproven information is used it is labeled as such by the use of the word, 'probable or possible', otherwise, sources are cited. Since there is a vast amount of information contained in this book, it should be a welcome tool for anyone researching this line. The spouse surname index might be helpful to persons researching other New England lines. An interesting feature of this book is the unconditional money back guarantee offered by the author.

THE DECKER GENEALOGY, Benton Weaver Decker, Rear Admiral USN (ret.), 1980, 8 1/2 x 11, Hard cover, 362 pages, Indexed, Admiral B. W. Decker, 1086 Bangor Street, San Diego, CA 92106, \$75.

THE DECKER GENEALGY, SOME DESCENDANT OF THE DUTCH IMMIGRANTS, JOHANNES GERRETSEN (DECKER) AND JAN BROERSEN (DECKER), as its' subtitles hints, deals with two unrelated immigrants who took the same surname sometime after arriving in America. The genealogy deals with the descendants of each immigrant in a very clear, concise manner. The problem of keeping these two families separate is well managed. The book is divided into two sections and each individual is identified by an easily understood numbering system. There are 14,000 individuals listed in THE DECKER GENEALOGY, so it should be of interest to anyone researching a Decker line. It should also be useful in researching 17th and 18th century Dutch lines in the Hudson River counties of New York. The early generations are well documented in those counties. This is a well done book with a full name index and both the test and index are in large easy - to -read type.

ACADIAN DESCENDANTS, VOL IV, Janet B. Jehn, 1980, 8 1/2 x 11, Soft cover, Perfect binding, 497 pages, Full name index, Acadian Genealogy Exchange, 863 Wayman Branch Rd, Covington, KY 41015, \$20.

Over 350 pedigree charts of Acadian ancestors submitted by their descendants. Some old and new photographs are included as well as origins of some Acadian names. Acadian surnames on the charts include Achee'- Gallant, Allain, Babin, Bellisle, Beaux, Caissy, Dupre', Forest, Gotrot, Henry, Landry, Guillot, Le Blanc, Ledet, Michel, Richard, Robichaux, Roger, and many, many others, including French - Canadians who inter-married with Acadians returnig from exile in the mid to late 1770's.

THE GENEALOGICAL HISTORY OF DESCENDANTS OF CONRAD RARICK (1722 - 1790), HENRY RARICK (1755 - 1817) AND OTHER RARICKS, Alden J. Rarick, M. D., 1979, 8 1/2 X 11, Soft cover, Offset, 405 pages, Full name Index, Alden J. Rarick, M D, 6 Carriage Lane, Danville, IL 61832, \$16.75.

RARICK DESCENDANTS, has 3 pages of bibliography, covers nine generation in some lines. It is listed as Vol. I genealogical descendants of Conrad Rarick (1722 -1790) and Vol. II Henry Rarick (1755 - 1817) and descendants of son,

Phillip. This book also lists separate sketches of eleven other Rarick family groups in various states with no established relationship to the original groups available. There is also no documentation located establishing relationship of Henry to Conrad. Worth checking if you have a Rarick connection.

JOHN QUIGG, JR., (1779 - 1814) IMMIGRANT 1802, HIS ANCESTORS AND DESCENDANTS, WITH ALLIED FAMILIES, Sylvia C. Fuson Ferguson, 1977, 6 1/4 x 9 1/2, Hard cover, Offset, 230 pages, Indexed, Sylvia C. Ferguson, 200 West Church St., Oxford, Ohio 45056, \$17.95, \$1 postage.

Eight families, each given a chapter in this book are covered. John Quigg, Jr. immigrated in 1802 from County Derry Ireland, settled in Pennsylvania. He married had 2 sons and died in 1814 in eastern Pennsylvania having enlisted in the War of 1812. Considerable Irish history is given concerning the emigrants forebearers. Seven other allied families include Richard Swain (1610 - 1682) who came to America, 1635, from England; Thomas Frazier, 1750, from Scotland; Gustav Kramer, Conrad Kramer, and Wm. Kramer, 1856-9, from Germany; Henrietta Wiechman, 1862, from Germany; Edward H. Klute, 1851, from Germany; Florenz Miller, 1855, from Germany; and John Ferguson, 1832, from Scotland. There are brief notes on several other families, Barnard, Bunker, Folger, Gardner, Macy, Starbuck and Morris. This book should be of considerable interest to descendants tracing these families.

A complete name index to the 1881 HISTORY OF MILL COUNTY, IOWA, a rare book which has never been reprinted. For a \$ .50 fee and SASE, the author will make xerox copies of specified pages, which should be a help to anyone with ancestors in Mills County, Iowa.

Bethany Home Rd. #10, Phoenix, AZ 85014, \$10pp, Tax Az residents only.

Fourteen generations in America through two genealogical lines (Hardy and Higgins) and their known branches. The scope of this book is tremendous, taking the Higgins and Hardy lines as well, back to antiquity. In the course of that journey are included many of the better known families of early America. Sources are carefully noted following each family vignette, including such facts as whether a family is armigerous, and whether descent from such family is qualification for membership in the many and varied

hereditary societies. This is obviously a "labor of love", providing a "roll of honor" of those family members who have served in honorary and/or official capacities of note. The format is unique and interesting. Largely dealing with New England families and their antecedents, there are nevertheless some Southern families included.

THE NIGHTINGALE GENEALOGY 1814-1976, Dorman J. Robinson, 1979, 6 1/8 X 9 1/4, Hard cover, 153 pages, Indexed, Dorman J. Robinson, 1520 Alturas Dr., Owosso, MI 48867, \$10, \$1 mailing.

This book gives the genealogy of the Nightingale family from Daniel Nightingale (1780-1854/5) through the eighth generation, the latest of whom was born in 1978. The book gives a wealth of information and vital statistics for not only the direct line but lateral families as well, and a very interesting system of numbering. Graphs are given for the Livermore and Rockwell lines, related by marriage to second generation Nightingales. A twelve page index gives all names of relations mentioned. Researchers of the names given will find much source material and other genealogists will be interested in the style of presentation.

GEORGE ADAM MANN 1734-1821, A FAMILY ON FOUR FRONTIERS, Dorothy C. Knoff, 1977, 9 1/4 X 6 1/4, Hard cover, 168 pages, Indexed, Dorothy C. Knoff, 10 Pond View Dr., R. R. 2, E. Sandwich, MA 02537 \$20, \$1 mailing.

This is the history of the family of George Adam Mann, whose father, Jerg Bernhart Mohn, with his family, and other Palatines had left Germany and come to Pennsylvania. George Adam Mann and his wife Elizabeth, longing for land to the west, decided to leave Pennsylvania and go on to Virginia. This book tells of their life in Virginia, during the French and Indian Wars (ca 1754), then continuing to Kentucky through most dangerous Indian country using a pack horse and carrying by hand their supplies and possessions, themselves walking much of the way, at one time having to go 200 miles beyond the last trading post, sometimes following Indian trails, bison trails, or cutting their way through. Years later this family moved to Ohio. The last portion of the book contains genealogy charts. This book will be of great interest to all whose families may have duplicated the same life threatening sojourn as the Mann family. To the genealogist it gives an exact account of the lives of these hardy pioneers.

DESCENDANTS OF JOHN MAY OF ROXBURY, MASS 1640, John F. May, 1978, 9 X 6, Library, 596 pages, Indexed, John F. May, 286 Princeton Road, Sterling Junction, MA 01565, \$20.50pp.

104 years ago, 6th & 7th generation descendants of John May (1590-1677) were responsible for the first edition of this book. John came to America with his wife and sons, John and Samuel, and, as the title suggests, settled in Roxbury, MA in 1640. In all located records, his wife is referred to only as "wife" or in 1651 church records of her death as "Sister Mayes". John Franklin May, a 10th generation descendant of this pair, published the second edition in the centennial year of the original. Using the 1878 book as a base, he was able to review, supplement, make some corrections, and bring the records up to the present generation -- the 13th in America. During his 8 years of research he received information from nearly 100 people and found 6 of the original books in which the holders had penned in corrections and additions. Blank pages in this book are for that purpose. (A three-page bibliography and a table of contents were also added.) As in the first book, there is a chapter on known facts about May families whose descent has not been traced, but who may or may not be connected to this family. Following the introduction used in the 1878 book, there is an account of a 1875 trip to Mayfield, Sussex, England, believed to be the native home. This, "although probably true, cannot be affirmed positively." John Franklin May has named 4000 descendants of the first John May, so the book's usability has been much improved by his three indexes: 1) the May name only; 2) a full name index of other families; 3) a geographical index of towns and cities in 49 states and 38 foreign countries, showing just how far this family has spread since Roxbury. The revised numbering system gives each person a generation number, a chronological number within the branch, and in some cases a family branch letter. Following the basic format of the original book, after dealing with early generation, he divides the branches according to the geographical location of the 3rd or 4th generation, most of whom left Roxbury between 1700 and 1740. Those who remained in Roxbury the longest are called the "Homestead Branch". Other descendants started branches in Stoughton, MA; Bristol

(now RI); Pomfret, Woodstock and Wethersfield, CT. Current descendants of this line no matter where they live are connected to one of these branches. Mr. May says, "accuracy of data contained in this book unless otherwise noted has not been verified." He hopes readers will "supply additional information, identify defects--" but he feels that now previously scattered information has been brought together in this book and can serve for many years to come as a "central source of information" on the descendants of John May.
