Dallas Genealogical Society April-June Newsletter

Hello, DGS Member,

The new issue of our [Newsletter](#) is now available on the Society's web site. Read about the 2013 Summer Institute with featured speakers Pamela Boyer Sayre and Richard Sayre, a web site that offers links to the digital archives of 37 states, information about our Special Interest Groups, and more.

Dallas 2013 Summer Institute: August 2-3, 2013
Rite of Yesterday: Using Maps, Land and Other Records to Complete Your Family Story

The 2013 Dallas Summer Institute on August 2-3 will focus on using land records, maps, and other government records to help complete your family story. There is more to our ancestors than birth, marriage, and death. Where did they live? What land was "their" land, not just what county or state was their home? The 2013 Dallas Summer Institute will focus on looking at the *Rite of Yesterday* through maps and records and show us how to use that information to tell a complete family story.

We are proud to have gifted genealogy lecturers Pamela Boyer Sayre and Richard Sayre as our keynote speakers for the event.

Pamela Boyer Sayre, CG™, CGL, has presented in more than thirty states. She is co-coordinator for two Salt Lake Institute of Genealogy courses (*Researching in Washington, D.C., Without Leaving Home and All About Land*), coordinator for Stanford University's *IGHR Techniques and Technology* course, and former instructor in Boston University's Genealogical Research Program. She co-authored *Online Roots: How to Discover Your Family's History and Heritage with the Power of the Internet* (Nashville, Tenn.: Rutledge Hill Press, 2003) and *Research in Missouri* (Washington, D.C.: NGS, 1999, 2007), penned the *FGS FORUM's* *Digitalis* column for five years, and was editor of the *Association of Professional Genealogists Quarterly*. Sayre was director of education and publications for the National Genealogical Society, and she served on the boards of both NGS and FGS.

Richard Sayre, CG™, is a longtime researcher, lecturer, and writer. His areas of interest include urban research methodology, mapping tools for genealogists, military records, immigration, the Ohio River Valley, and Western Pennsylvania, and he has lectured about those topics to genealogical societies across the United States. He is co-coordinator for two Salt Lake Institute of Genealogy courses (*Researching in Washington, D.C., Without Leaving Home and All About Land*), coordinator for Stanford's *IGHR Land Mapping: Using Maps* course, and he teaches in *IGHR's* *Advanced Methodology, Advanced Military, and Techniques and Technology* courses.

Rick is a member of the board of the Virginia Genealogical Society and a former vice president of the National Capital Area Chapter of APG.

Information about registration and topics is available on our website at www.dallasingenealogy.org.
