Morning Table Discussion: *Focus on Membership*

Summary of Ideas

The morning panel discussion focused on various areas related to society membership. Participants were asked to share their reactions to the ideas presented by the panelists as well as any other ideas or experiences related to society membership. Considerations might include: Meetings, new members, social media, remote members, volunteers, or beginning researchers. Questions to consider might include: What activities or efforts have been successful? What challenges or roadblocks to success do you see?

Following the table discussions, one person from each table shared their table’s key discussion points. This paper is an outline of the points presented.

**Social Media**

- A closed Facebook group (versus a FB page)
  - Active management needed:
    - Welcome new group members; Solicit posts about their ancestors
    - Encourage existing members to join group & contribute; post about value of membership
- Societies need to be involved in social media
- Can be intimidating to members; face-to-face contact is important as well
